## ABOUT THE NATURE CONSERVANCY OF CANADA

The Nature Conservancy of Canada (NCC) is Canada's largest land conservation organization. We work with communities, individuals, foundations, corporations, governments and other partners to protect native animals and ecologically significant lands through the purchase, donation or placing of conservation easements on ecologically significant lands.

Our conservation success is built upon three essential components: conservation science, land securement, and ongoing land stewardship. The science-based long term approach is what makes NCC unique.

**Since its founding in 1962, NCC and its supporters have protected 2.8 million acres of land across Canada.**

With a national office in Toronto and seven regional offices across the country, NCC delivers results you can walk on.

## THE OPPORTUNITY

This is an exciting time to join NCC as it prepares to launch its **Landmark Campaign**, the largest fundraising campaign in NCC's 50 plus year history with a goal of \$750 million. With much of this investment depending on support from individuals, foundations and corporations, the private sector is critical to the success of this campaign and to the future of Canada's conservation sector.

NCC is therefore making a significant investment in growing its Development team across the country to achieve these ambitious goals. The NCC is seeking a **Senior Development Officers (Quebec Region)** with a genuine passion for conservation to build new relationships and secure major gifts.

This position will be located at NCC's regional office in Montreal.
